Sprint 3 Plan

Product name: PawPal
Team name: Paw Patrols
Sprint Dates: July 15 - July 22, 2025
Scrum Master: Jasmine Neumann

Revision number: 2
Revision date: July 20th, 2025

Goals
- Connect Login with User profiles and creation
- Create browsable feed for users to see accept tasks.
- Create function that allows filtering based on pet type and location
- Implement Lost and Found page for users to post Lost pets

Task listing (organized by user story)
- {Priority 3} User Story 3.1: "As a multi-pet owner, I would want to be able to list multiple pets under my profile so it's easy to specify what pet my post refers to" [5 points]
  - Task 3.1.1: Extend profile schema to support multiple pets (3 hours)
  - Task 3.1.2: Add pet model to backend and update database (3 hours)
  - Task 3.1.3: Build UI for adding/removing pets with pet details (4 hours)
  Total Hours for User Story 1.1: 10 hours

- {Priority 2} User Story 3.2: "As a pet owner, I want to see ratings and reviews of potential helpers so that I can choose someone trustworthy to care for my pet." [8 points]
  - Task 3.2.1: Design schema for reviews/ratings (3 hours)
  - Task 3.2.2: Rating average system display in the user profile (3 hours)
  - Task 3.2.3: Create review submission UI after task completion (3 hours)
  Total Hours for User Story 1.1: 9 hours

- {Priority 1} User Story 3.3: "As a pet owner, I want my pet to have opportunities to socialize or get attention so that they stay happy and active even when I'm tied up with other things." [5 points]
  - Task 3.3.1: Design schema for pet social posts (3 hours)
  - Task 3.3.2: Build frontend form to create social posts with time/place info/ filters (4 hours)
  - Task 3.3.3: Add RSVP or interest button functionality (3 hours)
  Total Hours for User Story 1.1: 10 hours

Team roles
- Serena Choi: Product Owner
- Owen Liu: Developer
- Alex Wang: Developer

- Jasmine Neumann: Scrum Master
- Wenxuan Liu: Developer
